

# GASOLINE

(D. Boyle)

## VERSE

Dm  
Across the fields and the valleys  
Far away from the rich folk's homes  
Where the sky is smoke, hear a whistle blow

This job has left me ragged  
Like the rust stains on the floor  
Better check your heart at the factory door

---

## BRIDGE

'Cause I've heard 'em say that it's time to go  
That my better days are all but gone

---

## CHORUS

Dm F C Dm (Same pattern throughout chorus)  
Ain't gonna stop 'til the wheels fall off  
And every drop of gasoline burns  
Ain't gonna stop 'til the wheels fall off  
And every drop of gasoline burns

---

The sound of 1000 hammers  
Rings through the open-air  
After 40 years it's all I can hear

And I've worn straight through my soles  
On the bottom of my shoes  
But the well ain't dry, and I've paid my dues

## BRIDGE

## CHORUS

SOLO (Dm to C chords)

## BRIDGE

CHORUS X 2
